Work Experience

R3S1N s.r.l.

Cenate Sotto, Italy

Administrative Employee

2022 – 2023

- Developed multiple VBA macros and forms, significantly enhancing workflow efficiency and accelerating critical processes
- Optimized data collection process by developing prototypes designed to collect field data more efficiently using Microsoft Power Apps and Power Automate
- Maintained numerous spreadsheets utilizing software applications like Microsoft Excel and Microsoft SharePoint

Projects

Comic Corner

catalinosbi.github.io/Comic-Corner

Web Application

- Designed “Your Comics,” a custom feature that allows users to create and manage comic folders, with comics added using the Marvel API-powered search engine
- Developed Comic Spotlight and Latest Releases sections, allowing users to view regularly updated new comic releases and specific series highlights

Maxim

catalinosbi.github.io/Maxim

E-commerce

- Engineered an Admin Panel that provides administrators with an interface to delete, update, and add new products
- Developed an Auth System, allowing users to create and manage accounts with features like user roles, password resetting, and Google OAuth
- Built a Backend API connected to a MySQL database, providing CRUD functionality.
- Designed cart component, enabling users to add or remove products and adjust their quantities
